| A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.  - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.  - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.  - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. ## **DETAILED ACTION**

## Election/Restrictions

1. Applicant's amendment filed on 05/10/2006 is acknowledged.

2. Restriction is required under 35 U.S.C. 121 and 372.

3. This application contains the following inventions or groups of inventions which are not

so linked as to form a single general inventive concept under PCT Rule 13.1.

4. In accordance with 37 CFR 1.499, applicant is required, in response to this action, to

elect a single invention to which the claims must be restricted.

I. Claims 1-12, directed to a method of deactivating an allergen, the method

comprising: dispersing into an airspace capable or able to support said allergen an allergen-

deactivating amount of a deactivant an allergen deactivating compound comprising one or more

of the following materials: a citrus oil; a mint oil; bois de rose oil; oil of jasmine; frankincense;

oil of bergamot; and oil of lemon grass.

II. Claim 13, directed to an allergen-deactivant composition comprising one or more

of the following: a mixture of oil of bergamot and bois de rose oil; a mixture of oil of lemon

grass and bois de rose oil; a mixture of a citrus oil and oil of bergamot; a mixture of a citrus oil

and oil of jasmine.

5. The inventions listed as Groups I-II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The invention of Group II was found to have no special technical feature that defined the contribution over the prior art of Smirnov et al. (Reference 9; IDS filed on 05/10/2006).

Smirnov et al. teaches a composition comprising a mixture of orange oil (citrus oil) and bergamot oil (In particular, abstract).

It is noted that the instant claim is drawn to a product, not to a method. Therefore, the recitation of "allergen deactivant" recited in claim 13 does not carry patentable weight per se.

The claims read on the active or essential ingredients of the composition.

The reference teachings anticipate the claimed invention.

Since Applicant's inventions do not contribute a special technical feature when viewed over the prior art they do not have a single general inventive concept and so lack unity of invention. The election of an invention may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated

Application/Control Number: 10/595,767 Page 4

Art Unit: 1644

as an election without traverse. Traversal must be presented at the time of election in order to be considered timely. Failure to timely traverse the requirement will result in the loss of right to petition under 37 CFR 1.144. If claims are added after the election, applicant must indicate which of these claims are readable on the elected invention.

If claims are added after the election, applicant must indicate which of these claims are readable upon the elected invention.

- 6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
- 7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nora M. Rooney whose telephone number is (571) 272-9937. The examiner can normally be reached Monday through Friday from 8:30 am to 5:00 pm. A message may be left on the examiner's voice mail service. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Eileen O'Hara can be reached on (571) 272-0878. The fax number for the organization where this application or proceeding is assigned is 571-273-8300.
